STRATEGIC ENVIRONMENTAL ASSESSMENT FOR THE RIVER
BASIN MANAGEMENT PLAN

Anita Gulam, M.Sc. Biology • Ministry of Environmental and Nature Protection, R. Austrije 14, 10 000 Zagreb, Croatia • (anita.gulam@mzojp.hr)

Anamarija Matak, B.Sc. Chemistry • Ministry of Environmental and Nature Protection, R. Austrije 14, 10 000 Zagreb, Croatia

Vesna Trbojević, B.Sc.C.E. • Ministry of Agriculture, Ulica Grada Vukovara 78, Zagreb, Croatia

STRATEGIC ENVIRONMENTAL ASSESSMENT FOR THE RIVER BASIN MANAGEMENT PLAN

Introduction

-  River Basin Management Plan
-  SEA Directive 2001/42/EC
-  Environmental Protection Act (OG 110/07)
-  Regulation on SEA of plans and programmes (OG 64/08)

Materials and methods

-  Procedure for determining the content of the strategic assessment study has been presented and it has been compared with the content prescribed by the Directive 2001/42/EC.
-  Methods which are used to assess the impacts of the plan on the environment have been examined.
-  Based on the conducted analysis and comparisons the relevant recommendations and guidelines for the SEA procedures have been suggested.

Discussion and results

- SEA procedure
-  Scoping
-  Environmental Report
-  Environmental authorities
-  Expert advisory committee
-  Public
-  Environmental measures and monitoring

Discussion and results

Scoping procedure:

-  Obligatory
-  Opinions from the bodies and/or person designated by special regulation on the content and scope of information that have to be processed
-  Opinions from the bodies of regional/local self-government units
-  Public information and public participation
-  Consultation – final content of SIS
-  Decision on the content of SIS

Discussion and results

Environmental measures:

-  Measures of protection of protected natural values, habitats, flora and fauna
-  Water protection measures
-  Soil protection measures
-  Human health protection measures

Conclusion

- SEA procedure has been conducted in line with SEA Directive.
- Croatian legislation relating to the SEA requires two mandatory consultations with the public. The first occurs during determination of the scope of the SEA Report and the second is during the review of the proposed draft planning document and the accompanying SEA Report.
- The impact of the alternatives should be assessed for a programming document in a new programming period.

Thank you for your attention!
